

ADJUDICATION SUCCESS

Paul Edwards, one of GVE's directors reported this:

"It's very pleasing to be able to report a positive outcome in a recent adjudication for an M&E subcontractor against a main contractor.

The main contractor eventually paid 42% more than they had previously been prepared to certify.

This success was due to a good team effort on the part of our client, ourselves and our legal support, initially at Quigg Golden <https://www.quigggolden.com> and at VWV <https://www.vwv.co.uk> during the adjudication".

Give us a call if you think your works are being undervalued or if you need assistance in respect of any other contractual dispute.
